Kamakura is a beautiful seaside town that attracts many visitors each year because of its history, which is considered by most to be a romantic blend of fact and fiction. You are sure to find great pleasure experiencing this beautiful town with its 65 Buddhist temples and 19 Shinto shrines. The **Great Buddha** is the single most visited attraction in **Kamakura**. Cast in 1252, the seated figure is over 37 feet high and weighs almost 100 tons. Its pose and position of the hands represents the Buddhist symbolism for unwavering faith. You can actually go inside the belly of the Buddha. Other things of interest that may be seen on this tour are the famous **Hase Kannon** and **Hachimangu Shrine**. The history of **Kamakura** really began when for the first time in Japan's history the seat of power was geographically and structurally removed from the Yamato region (Kyoto/ Nara area). In the 12th century the Taira and the Minamoto clans battled for control of Japan. The Taira clan was successful in the war. Shortly thereafter, they killed the Minamoto chief but spared his son Yoritomo. After living the life of a monk, Yoritomo successfully organized support against the Taira clan, thus avenging his father's death. The war between the two clans continued but ultimately the Minamoto clan secured supreme power over the country. Wishing to distance himself from the rich and stately court life previously favored by those in power he chose **Kamakura** as his home base. Bring yen for souvenirs and lunch, or bring a picnic lunch.
